

BrakeTech Cobra Rotors

Joining Brake Tech's exotic ceramic and race-spec ductile-iron Axis front-brake line is the new stainless-steel Cobra series. Using the same Direct-

Link load-transferring carriers, the heat-treated rotors feature a new "petal" design, and are cryogenically treated to enhance thermal stability. Suggested retail price is \$310 per disc.

Dunlop Supermoto Race Tires

Just how committed is Dunlop to supermoto? For starters, the tire-maker constructed a purpose-built test track at its Huntsville, Alabama, proving grounds! Described as a clean-sheet effort, the all-new 125/70-17 front (\$150) and 160/60-17 rear (\$175) slicks are designed to enhance control, feedback and grip, and eliminate chatter. A unique, slightly raised surface matrix facilitates hand-cutting.

Rabid Quick Sliders

Slip, sliding away—again? Cut down on crash damage with \$120 Rabid Quick Sliders. Currently available for 2000-and-later KTM's with 20mm rear axles (Honda and Yamaha models in the works), the anodized 6061-T6 aluminum chain-adjuster blocks incorporate grooved spools, so as to allow use with roadrace-style stands.

Gator Straps

Would you trust your brand-new bike to cheap or worn-out tie-downs? A full 7 feet long, Gator Straps are manufactured from heavy-duty nylon and reinforced at the edges with polyester. Hook connection points are glued then double-box-stitched—no stray threads or frayed webbing here. Choose from 1- or 1.5-inch cam buckle (\$19/24) or 1.5-inch ratchet (\$32) styles, all featuring Gator's convenient inverted design and built-in soft loops.

MX Shade

Now there's no need to get sunburned between motos. A lightweight alternative to conventional, four-legged canopies, the compact, umbrella-type MX Shade slides into any hitch receiver, expands to 8 x 8 feet, can be set up by one person in less than a minute and withstands wind up to 40 mph. We recently spent a long couple of days at the motocross track and the \$199 MX Shade was a

welcome addition to the Team CW pits. The multiple-position feature is a real plus; no matter the time of day, there's always shade. Away from the track, the entire structure—canvas canopy, steel frame and base—fits in a supplied carrying bag. Standard colors are black, yellow or blue; custom hues and graphics are available.
